

## Ground Source HP Installers

---

### Alternative Heat Ltd

---

11 Burrenreagh Road, Castlewellan, County Down BT31 9HH  
Northern Ireland

02843770700

Eamon Clarke

Alternative Heat specialises in the design, supply, installation and commissioning of renewable heating systems for domestic, commercial and industrial applications.

### Barry Clark Plumbing and Heating Ltd

---

Rose Gala Farm, 57 Main Street, North Frodingham, Driffield  
YO25 8LG

01262 488475

Barry Clark 07971627124

Barry Clark Plumbing and Heating provides installation and servicing of heating systems including Heat Pump Systems.

### Baystar Energy Efficient Systems

---

Beechover Court, Forest Road, Colgate, Horsham RH12 4SY  
01293 851459

[www.baystar.co.uk](http://www.baystar.co.uk)

Tessa Guy

Baystar Ltd provides advice, supply and installation of energy efficient and renewable technologies. We are accredited installers focussing on heat pumps for rural domestic properties, new build and small commercial. We specialise in integrating heat pumps into refurbishment projects. We would be happy to provide initial project specific advice given our wealth of experience in heating systems engineering and sustainable construction.

### Calibrate Energy Ltd

---

West Ditchburn Farm, Alnwick, Northumberland NE66 2UE  
01665 578638

Shane McDonald

Calibrate Energy is a leading provider of intelligent 'hands off' commercial heat pump systems, designed to save energy costs for businesses. Our expertise lies in harnessing the natural energy resources surrounding a building to provide clients with reliable, low cost heating through integrated heat pump systems. We're passionate that the solutions we provide are second to none: proven by our successful history of application in the UK and internationally.

### Daly Renewables Ltd

---

Unit 171c Rosevale Industrial Estate, Moria Road, Lisburn  
BT28 1RW

028 92667745

[dalyrenewables.com](http://dalyrenewables.com)

Ryan Daly

Daly Renewables offer a "one-stop shop" to the domestic and commercial underfloor heating and renewable energy market. MCS Registered Installers of ground source heat pumps and solar water heating systems specialise in integrating different renewable energy systems. We take projects from initial consultation stage through to a complete design, installation and commissioning to final handover.

### Earth Source Energy

---

Unit 6 Silver Birches Business Park, Aston Road, Bromsgrove,  
Worcestershire B60 3EU

0330 22 333 00

Mark Schofield

Earth Source Energy is a MCS certified renewable energy engineering firm, specialising in Viessmann products. We offer turn-key solutions, from designing and specifying systems, through to installing and maintaining them. We service all makes of GSHP. We specialise in ground source heat pumps, including open-loop water systems. We are experienced in retrofitting systems to large domestic properties, district heating systems and commercial applications. We have installed systems in stately homes, private residences, schools, fire stations, theatres, propagation nurseries, a castle in Eire and even a boat in Bristol harbour.

### Eartheat Ltd

---

Clarks Road, Wigston, LE18 2BG

0845 618 7113

[richard@eartheat.co.uk](mailto:richard@eartheat.co.uk)

[www.eartheat.com](http://www.eartheat.com)

Richard Walkden

As installer/partners to major manufacturers and with a wealth of heat pump experience, we offer bespoke heat pump heating solutions to people and organisations who want efficient, cost effective and environmentally friendly heating and cooling solutions. Richard Walkden, MD, has been installing Heat Pumps & Underfloor Heating for the last ten years and is passionate in his approach to heat pump design, installation and commissioning.

## Earthtest Energy Ltd

---

Bridge Mill, Huddersfield Road, Holmfirth, West Yorkshire,  
HD9 3TW

01484 681314

Frances A Bennett

Earthtest Energy offers a complete heating solution using open loop, water source heat pumps for both domestic and non-domestic properties. An Earthtest system achieved the first ever RHI accreditation in January 2012. Subsequent monitoring has showed it to be significantly more efficient than any other assessed installation monitored by DECC.

## Eco Friendly Installations Ltd

---

Penrhos, Aberdyfi, Gwynedd LL35 0NR

01654 767572

www.ecofriendlyinstallations.com

Johannes ten Wolde

Eco Friendly Installations are specialists in radial drilling for ground source heating. We design and manage heat pump installations from initial surveys through planning, drilling, pump installation and final handover.

Radial drilling uses varying angles for boreholes to allow heat extraction from a wider ground source. This draws heat efficiently and ensures maximum wattage per metre.

## Ecovision Systems Ltd

---

Barley Court, Doughton, Tetbury, GL8 8TQ

Tel: 01453 861354 Fax: 01453 861365

info@ecovisionsystems.co.uk www.ecovisionsystems.co.uk

Julia Wallington

Ecovision Systems are specialists in the design, supply and installation of renewable heating solutions. Ecovision's fully integrated and tailored service incorporates the design,

installation and commissioning of a comprehensive range of renewable and sustainable technologies, including ground and air source heat pumps with underfloor heating, solar thermal hot water and also rainwater harvesting. Ecovision also offer a complete project management service, as well as specialist advice on Building Regulations, SAP assessments and grants.

## Elite Technical Services Ltd

---

242 Hillbury Road, Warlingham, Surrey CR6 9TP

020 8786 3676 / 07827 948917

Martyn Fowler

## EnergyZone

---

Ditton Mill House, Cleobury Mortimer, Shropshire DY14 0DH

01299 270 011

Andy Perkins

EnergyZone's objective is to provide reliable, affordable solutions for all types of renewable energy, delivering a professional and efficient service and ensuring your property's unique characteristics and your personal requirements are fully addressed.

## Finn Geotherm Ltd

---

Wood Farm, Deopham Road, Attleborough, Norfolk NR17 1AJ

01953 453240 / 0800 999 3240

Guy Ransom

Finn Geotherm have installed almost 300 heat pump over the past seven years from two bedroom bungalows to large commercial and industrial projects - from 5kW to 600kW. As well as being the sole representative of Lampoassa ground source systems, we are one of only a handful of "Expert" Dimplex air source heat pump installers. Existing installations include schools, churches, leisure centres and offices as well as houses.

We were one of the first to gain MCS accreditation for heat pumps installations and complete them using our own engineers, including plumbing, electrical and ground works. Each member of the FGT team takes great pride in the quality of our installations - each project being regarded as a potential case study. We are also able to consider the installation of commercial ground source systems at zero cost to our clients, with the investment being returned via the commercial RHI.

## Future Electrical Services Ltd

---

Alsa Park, Alsa Street, Stansted, CM24 8SQ

Tel: 0127 9 817775 Fax: 0127 9 817776

sales@futureelectrical.co.uk

www.futureelectrical.co.uk

Chris Eyre

Installers of ground source heat pumps

## G-Core Ltd

---

The Barn, Church Meadows, Haslingfield Road, Barrington,  
Cambridge CB22 7RG

01223 874692 / 07554 458119

Design, consultancy, installation and commissioning of ground source and geothermal heating and cooling systems. Commercial and large domestic projects.

## Geothermal International Ltd - GI Energy

---

Spencer Court, 143 Albany Road, Earlsdon, Coventry CV5 6ND

Tel: 024 7667 3131 Fax: 024 7667 99 99

enquiries@geothermalint.co.uk / sl@geothermalint.co.uk

www.geothermalint.co.uk

Stuart Lawrie

Geothermal International was established in 2000 and has installed many GSHP systems within the commercial buildings market.

## Geowarmth Heat Pumps Ltd

---

6 Back Goldspink Lane, Sandyford, Newcastle upon Tyne  
NE2 1NU

Tel: 01 91 261 7751 Fax: 01 91 261 62 91

[info@geowarmth.co.uk](mailto:info@geowarmth.co.uk)

[www.geowarmth.co.uk](http://www.geowarmth.co.uk)

John Withers

We are a designer, supplier and accredited installer of ground source and air source heat pump systems.

To complement this we can also install underfloor and radiator distribution systems and solar thermal hot water installations.

We provide a complete heating and hot water solution for our clients. A thermal response test rig is another service we can provide for undertaking ground conductivity tests.

## Greenfield Heat & Power Ltd

---

Unit 9, Newtowngate, Newton Reigny, Penrith, Cumbria CA11  
0AB

01768 210241

Andrew Beatty

## Ground Heat Installations Ltd

---

Unit 4 Northern Diver Building, Appley Lane North, Appley  
Bridge, Wigan, WN6 9AE

01257 255825

Dave Thompson

Ground Heat was established in 2006 on the strength of 32 years in the heating industry. In 2011 Ground Heat won the Renewables Ground Source Installer of the Year and overall Renewables Installer of the Year. The company has been nominated as a finalist in the H&V Awards 2012 and the Heat Pump Awards 2012 and is MCS accredited. We are accredited

with several manufacturers and have now completed over 100 installations throughout the UK linking ground source with solar thermal, wind turbines, swimming pools and HRV systems. We constantly monitor our heat pumps for performance and customer satisfaction.

## Ground Sun Ltd

---

49 High Street, Wanstead, London E11 2AA

0208 989 7134

Brian Connell

Ground Sun has the design, engineering and construction expertise to ensure that energy reduction and green technologies are incorporated into the very core of your building. We are passionate about Ground Source Heat Pump technology and are MCS accredited installers of heat pumps. We believe in a holistic approach to energy use in buildings and to this end install underfloor heating, mechanical heat recovery ventilation, solar thermal and design and build our own energy efficient buildings with helical screw piles and Structural Insulated Panels so we can speak with authority when advising clients on how to get the best out of their renewable heating system and how to set up the fabric of the building to complement its use.

## Ground Therm

---

129 Mill Lane Denton, Manchester M34 7RS

077 96 811072

[www.groundtherm.co.uk](http://www.groundtherm.co.uk)

Andrew Louth

Ground source, air source and heat recovery.

## Heacol Ltd

---

23 Kingsway, Ulverston, Cumbria, LA12 9AX

01229 587894 / 07883 064216

Brendon Uys

Ground source and air source heat pumps can be retrofitted to replace your current boiler, or be fitted alongside an existing system to provide economical heating.

## HD Services Ltd

---

Thorne Barton Farm, Chesham Road, Ashley Green, Bucks  
HP5 3PQ

01494 792000

[www.hdgeothermal.co.uk](http://www.hdgeothermal.co.uk)

Rebecca Taylor

We aim to provide the highest quality open-loop service available. Our clients depend upon our advice and flexibility to suit their individual requirements and we associate ourselves with suppliers that have a similar ethos. We have a partnering agreement with Thermal Engineering Systems, a market leader in Open Loop Ground Source Heat Pumps. HD Services Ltd is a BS EN ISO 9001 and BS EN ISO 14001 registered company and a member of the Renewable Energy Association. The company is MCS accredited. All drilling works are carried out by our sister company, HD Drilling Ltd, who have been members of the Well Drillers Association since 1988.

## Hero Renewables Ltd

---

Spring Farm Business Center, Moss Lane, Minshull Vernon,  
Crewe, CW1 4RJ

01270 522164

Jill Oldham

Hero Renewables Ltd are renewable eco energy specialists, providing homeowners with a design, supply, installation and maintenance service for a wide range of innovative energy saving, eco-friendly systems that will not only save you money but help you to achieve your 'green goals'.

## ICAX Ltd

---

33 Greenwood Place, London NW5 1LB

020 7253 2240

info@icax.co.uk www.icax.co.uk

Edward Thompson

ICAX Ltd is the inventor of Interseasonal Heat Transfer. IHT is a complementary fusion of solar collectors, ThermalBanks and GSHPs to achieve a 50% saving in carbon emissions compared to using a gas boiler for heating new buildings. See [www.icax.co.uk](http://www.icax.co.uk) to read about solar recharge of the ground, achieving thermal balance over the seasons and sustainable ground source heating and cooling systems.

## IFTech Ltd

---

1 City Square, Leeds LS1 2ES

0113 366 3040

Specialist design and build contractor for shallow geothermal systems. Particular expertise in underground thermal energy storage systems. IFTech is involved in systems from feasibility through to ongoing monitoring and maintenance.

## ISO Energy Ltd

---

The Stables, Meath Green Lane, Horley, RH6 8JA

Tel: 012 93 821345 / 077 9 583 5869

Fax: 012 93822011

energy@iso.co.uk www.isoenergy.co.uk

John Morris

Design, supply, installation and commissioning of heat pumps into large country houses and new build developments. See website for further information including case studies.

## JKN Renewables Ltd

---

Office Suite 4, The Gables Business Park, Belton Road, Epworth,  
Doncaster, DN9 1JL

01427 874308

Antony Noonan

JKN Renewables specialize in low energy heating, cooling and hot water systems. We provide design, consultancy and installation services. We pride ourselves on providing expert advice on and quality installations of ground and air source heat pumps, under floor heating and solar thermal. We endeavour to deliver better solutions in the domestic and commercial heating sectors.

## JL Phillips Renewable Energy Ltd

---

6 Evans Business Centre, Jessop Close, Newark, Nottinghamshire  
NG24 2TT

01636 642790

J L Phillips Renewable Energy Ltd are installers of renewable energy solutions for both commercial and domestic markets across the East Midlands. Established in 2010, we specialise in the installation and servicing of ground source heat pumps and are a well-respected renewable energy installation company with a wide range of successful installations to date. With full MCS accreditation, our customers can be sure of knowledgeable and

friendly staff, experienced engineers, excellent project management, clear communication, bespoke designs and great aftersales service. Please visit our website for more information on ways we can help you with your project.

## Matrix Energy Systems Ltd

---

23 Lathkill Close, Richmond, Sheffield S13 8DL

0114 399 7960

Paul Leedham

Matrix Energy Systems provides accurate thermal modelling for building heat loading and cooling patterns as well as full M&E services for optimal system design and performance. We design, install, commission, handover and maintain all of our projects. We have also trained all of the BPEC trainers in the UK to the latest QCF recognised standards for heat pump installations.

## MMAXX UFH Ltd

---

2 Lenziemill Road, Cumbernauld, Glasgow, G67 2RL

01236 787000

Ross McFarlane

Designer and installer of ground/air/exhaust air source heat pumps, solar thermal and underfloor heating.

## Mollison HPR

---

1 Leyshade Farm Cottages, Tealing, Dundee, Angus DD4 0PX

08006226929

Scott Mollison

### N. F. M. E. Ltd

---

7 Petercole Drive, Bishopsworth, Bristol BS13 8JP  
07973 561638  
Marcus Whitticombe

### Northburn Solar Ltd

---

16 Motcombe Way, Cramlington, Northumberland NE23 3XL  
01916451212  
Warren Gray

Northburn Solar is a renewable energy installer which listens to customers' needs and offers systems that meet not only the technical requirements but are aesthetically pleasing and practical too. Our expertise allows us to use a range of manufacturers' equipment so we can offer the correct systems to meet your requirements.

Northburn Solar specialises in the integration of:

Solar panels - Solar PV, Solar Thermal, Solar PV-T and Hybrid solar PV-T systems;

Heat pumps - Ground source heat pumps and Air source heat pump systems;

Heat Emitters - Underfloor heating and radiator heat emitter systems;

Ventilation - Mechanical ventilation and heat recovery.

We offer turnkey solutions to the individual, self builders or commercial customers for the integration of both single and multiple technologies.

### Nu-Heat UK Ltd

---

Heathpark House, Devonshire Road, Honiton EX14 1SD  
Tel: 01404 54 9770 Fax: 01404 54 9771  
info@nu-heat.co.uk www.nu-heat.co.uk  
Ms Heather Oliver

Nu-Heat is one of the largest specialist suppliers of integrated underfloor heating and renewable systems to the UK domestic market. We design and supply a complete package with one source of responsibility and one point of contact. The Nu-Heat range includes ground and air source heat pumps, solar thermal, solar pv and rainwater harvesting.

### Orangehouse Renewables Ltd

---

Unit 7, Meadow View, Uffington Road, Stamford PE9 4SZ  
01780 490095

Karl Breeze

Orangehouse Renewables has over forty years' experience working in plumbing, energy efficiency and renewable energy. We specialise in installing renewable energy heating systems. We design, supply and install air and ground source heat pumps, solar thermal, rainwater harvesting and heat recovery systems. Orangehouse Renewables work with a range of manufacturers allowing us to provide the best of breed solution for your project.

### PowerNaturally Ltd

---

Unit 6, Telford Road, Ferndown Industrial Estate, Ferndown,  
Dorset BH21 7QL

01202 855804

Paul Yeatman

Design, supply and installation of renewable technologies:  
GSHP, ASHP, Solar thermal, Solar PV.

### Q-Gen Heat Pumps Ltd

---

St Pegs Mill, Thornhills Beck Lane, Brighouse, West Yorkshire,  
HD6 4AH

01484 475808

Liz MacFarlane

Q-Gen Heat Pumps Ltd is an MCS accredited installer of ground source and air source heat pumps. We are accredited installers of Danfoss, Mitsubishi and Worcester Bosch heat pumps. Our installations range from air source heat pumps in small apartments, to large scale deep borehole ground source heat pumps providing heat for care homes with up to 60 residents. We provide a complete service from initial enquiry through to final commission and much of our work comes from personal recommendation from satisfied customers.

### R A Brown Heating Services Ltd

---

Unit A7 Abbey Farm Commercial Park, Horsham St Faith,  
Norwich NR10 3JU

01603 898 904

Richard Brown

R A Brown Heating Services Ltd is an award winning family run company which was established in 1987. If you are looking to install a ground source heat pump for your property, R A Brown Heating Services have extensive experience of installing heat pumps, as one of the leading installers in Norfolk. Our team has a wealth of knowledge about renewable heating technology from ground source to air source, underfloor heating, to solar thermal or mechanical ventilation and heat recovery. We will simplify the choices and install the right system for an efficiently heated property. We have a renewable heating showroom near Norwich, where customers can meet us, look at products and discuss their project requirements.

### Radiant Heating Solutions Ltd

---

Hougham, Grantham NG32 2HZ  
Tel: 01400 250572 Fax: 01400 251264  
info@heating-solutions.biz  
www.heating-solutions.biz  
Nick Critchley  
Installer, consultant, designer, manufacturer.  
Specialist heating & cooling - incorporating hot and cold water services together with energy management.

### Reina Group

---

Pavilion House, 70 Pavilion Road, Folkestone, Kent CT19 5RL  
01303 248648  
Daniel Large  
The Reina Group design and install a complete renewable heat pump package, with full co-ordination and a single point of responsibility resulting in the smooth running of projects and effective long term use of our heat pump installation. The Reina Group has vast experience in the supply and installation of heat pumps across a range of sectors including domestic, rural, commercial, public sector and community projects. Our installation team cover London and the South East of England.

### Retherm Ltd

---

Unit D1, Trentham Business Quarter, Bellringer Road,  
Trentham, Stoke-on-Trent ST4 8GB  
Tel: 01782 65 9 5 94 Fax: 01782 646 443  
Martin McCormack  
Renewable energy - ground source heat pump installers.

### RHI Energies Ltd

---

Kemp House, 152-160 City Road, London EC1V 2NX  
0207 566 2187  
John Green  
RHI Energies can provide innovative technical solutions within the heating and cooling industry using the latest developments. RHI Energies, with 15 years' experience with ground source heat pumps, achieved accreditation in 2007 to the International Ground Source Heat Pump Association (IGSHPA) for the design and installation of ground source systems - one of only three companies within the UK with this accreditation. RHI Energies offers: detailed feasibility studies, thermal conductivity assessments, full turn-key installations from drilling through to heat pump installation, in-house pipework design and installation, pressure testing, flushing and commissioning.

### Saving Energy UK

---

Wansbeck Workspace Rotary Parkway, Ashington,  
Northumberland NE63 8QZ  
01670 850318  
0800 326 5207  
Annette Doncaster  
Saving Energy UK are one of the UK's leading cavity wall and loft insulation companies. Approved BBA cavity wall and loft installers, and MCS accredited solar PV installers, Saving Energy UK can provide a complete package of low carbon measures for your home.

### Smart-Flo Ltd

---

48 Langley Drive, Norton, Malton, North Yorkshire YO17 9AR  
01653 699484  
Philip Marwood  
Smart-Flo Ltd specialises in the design and installation of air and

ground source, biomass and solar thermal. We are a Yorkshire based with full MCS accreditation and customer references. Our engineers are apprentice trained in plumbing, heating and renewable energies and our aim is to advise and provide customers with the best energy solution for their project.

### Source Energy Ltd

---

1c Grampound Road Industrial Estate Grampound Road, Truro,  
Cornwall TR2 4TB  
0800 865 4328  
Graham Stevens  
Award winning heat pump specialists, Source Energy have been designing, supplying, installing, commissioning and maintaining ground and air source heat systems for over 10 years. Our portfolio now exceeds 700 projects across the UK.

### South West Heat Pumps Ltd

---

Unit 23 Coxleigh Barton, Shirwell, Barnstaple, Devon EX31 4JL  
01271 850040  
Tim Bristow  
South West Heat Pumps Ltd are an MCS accredited Renewable Energy install company. We provide top notch, environmentally friendly, heating systems for domestic customers throughout the South West.

### The Fuel Effect

---

5 Exeter Close, Tonbridge, Kent, TN10 4NS  
01732 354205 / 07821 428193

Peter Wickens

Wickens Utility Services Limited is a family company operating under the trading name The Fuel Effect. We offer a complete design, installation, commissioning and maintenance service for renewable technologies and are more than happy to discuss possible projects and provide advice on options available ensuring that our customers make the best informed choices available. Whilst specialising in heat pumps we offer a full installation and integration service for all renewable technologies.

### Thermal Earth Ltd

---

Capel Hendre Industrial Estate, Ammanford, Carmarthenshire,  
SA18 3SJ

01269 833 100

Kristian Davies-Lloyd

Thermal Earth was established in 2006 to meet the ever increasing demand for alternative renewable heating solutions. We are the 'one-stop shop' for biomass, heat pump and solar thermal installers offering technologically advanced systems from some of Europe's top manufacturers.

### TGE Group Ltd

---

Green Lane, Wardle, Cheshire CW5 6BJ

01829 261765

Matthew Evans

Design supply and installation of commercial ground source and air source heat pump systems including horizontal, surface water, open loop, closed loop and thermal pile. Turnkey solutions including the drilling, civil works, plant room, skid mount plant, container plant, building services, controls and main contract. Design includes IES thermal modelling, hydro-geology, GLD & EED design and full mechanical HVAC capability. Over 20 years' industry experience with many case studies up to 1MW.

### Total NRG Ltd

---

28a Blythe Park, Cresswell, Staffordshire, ST11 9RD

01782 399663 / 07366132119

Bryan Jones

Total NRG provides a high specification range of renewable energy systems such as heat pumps, solar thermal, solar PV & biomass (wood chip pellets). We design & install throughout the Staffordshire, Shropshire, Cheshire and Derbyshire borders. We fit domestic or commercial systems and also have a complete support service which includes equipment specification, installation, commissioning and full after sales service. This allows us to provide our clients with a practical & efficient solution which matches the specific requirements of each particular project in terms of both performance and the demands of your installation.

### WDS Green Energy Ltd

---

Grove House, 1 Coronation Road, Birchgrove, Cardiff CF14  
4QY

02920 190290

Lewis MacNulty

### Yorkshire Renewable Energy Solutions Ltd

---

Evans Business Centre, Monckton Road, Wakefield,  
West Yorkshire WF2 7AS

07766 555550

YRES aims to provide the most up to date and innovative renewable energy technology suitable for commercial and domestic use. We source, supply and implement a range of high-tech, carbon efficient solutions, including electricity, heating and hot water recovery, which reflect today's demand for sustainable technologies in the home and workplace: Large Scale and domestic Installations.

## Consultants

---

### B. A. Hydro Solutions Ltd

---

3 The Sidings, Station Road Shepreth, Royston, Herts SG8 6PZ  
Tim Baker

B.A.Hydro is a leading hydro-thermogeological consultancy which provides a comprehensive range of technical, design and support services to the drilling, water and ground-source heating/cooling industries. Services range from basic hydro and thermo-geological summaries, to full design and management of systems from domestic up to large scale installations. B.A.Hydro is involved with over 300 ground source heating and cooling installations a year across the UK and around the world.

B.A.Hydro owns and operates equipment for all types of testing and ground characterisation, including four thermal response testing units, a large stock of pumps, thermal probes and laboratory testing equipment. All staff are qualified, experienced and carry relevant tickets.

### BBH Energy Strategies Ltd

---

The Gardens, West Woodhay, Newbury, Berkshire RG20 0BP  
07393 399 685

Bean Beanland

BBH Energy Strategies is an energy and carbon consultancy and advisory service working with both industry professionals and individual property owners and in both commercial and residential sectors. Ground-source heat pump systems are a speciality with services ranging from feasibility studies through to detailed design, tender management and (sadly) troubleshooting of underperforming systems. A full range of peripheral services, such as electricity supply upgrade management, can also be provided. The company's emphasis is on the provision of high

quality and pragmatic solutions and on close and clearly communicated collaboration with the client.

### Carbon Zero Consulting Ltd

---

Office 11, 1C Uppingham Gate, Ayston Road, Uppingham,  
LE15 9NY

0844 8550115 / 01572 338307

John Findlay

Carbon Zero Consulting offers a full range of solutions for renewable heating, cooling and energy generation. We provide a single point of independent expertise of the highest professional standard for all areas of renewable energy design and implementation. Our core area of expertise is in the implementation of hydrogeology and thermogeology for the design and installation of open and closed loop ground source energy systems.

### European Geophysical Services Ltd

---

Shrewsbury SY4 4AS

01939 210710

Kim Beesley

### GeoScience Ltd

---

Falmouth Business Park, Bickland Water Road, Falmouth,  
Cornwall TR11 4SZ

01326 211070

Robin Curtis

Geoscience offers consultancy, feasibility studies, trouble shooting and designs for closed loop GSHP systems of any size. The company has worked in the UK GSHP sector for twenty years and has been responsible for the design of many hundreds of systems ranging from small social housing installs to large heating and cooling systems using a variety of heat pumps. Thermal response testing analysis and simulation studies of GSHP systems are undertaken.

### GSC Ltd

---

Unit 5, Hope & Aldridge Business Park, 183 Weddington Road,  
Nuneaton, Warwickshire CV10 0HF

02476 629762

Andrew Howley

GSC is a team of highly experienced and skilled consultants specialising in small and larger ground source heat exchange systems. With a wealth of experience in closed loop and open loop schemes, we are there to ensure that your project is delivering the energy demanded of it efficiently and sustainably. With one of the only qualified ground loop designers on our team (Certified Geexchange Designer) coupled with more than 60 years of family history in well drilling, GSC are able to diligently and expertly design your system or interrogate designs put forward by others so clients can proceed with the confidence that their chosen installer is proposing a workable and long-term solution. GSC offer independent feasibility reports, design services, tech-sub analysis, ground hydraulic and thermal modelling, installation management through supervisory roles and troubleshooting of problematic systems and expert witness.

### Holymoor Consultancy Ltd

---

360 Ashgate Road, Chesterfield, Derbyshire S40 4BW

Tel: 01246 230068 07989 358295

david@holymoor.co.uk

www.holymoor.co.uk

David Banks

Holymoor provides ground source heating / cooling consultancy, feasibility study, ground loop design and training services. Holymoor also offers expertise in the fields of hydrogeology, groundwater resources, water well (open loop) design and water chemistry. Holymoor operates throughout the UK and internationally.

## ICAX Ltd

---

33 Greenwood Place, London NW5 1LB  
020 7253 2240  
Mark Hewitt

ICAX are thermal energy specialists who provide consulting services on the design of ground source energy systems that can achieve long term sustainable heating and cooling systems. The advice is based on thermal models that have been developed by ICAX over many years of research to achieve thermal equilibrium. ICAX clients for these [thermal modelling](#) services include Mott MacDonald, Tesco, Highways Agency, REHAU, Telford & Wrekin Borough Council, Merton Borough Council, and the European Union.

## John Cantor Heat Pumps Ltd

---

Ty Pendre, Heon Malngwyn, Machynlleth, SY20 8EE  
Tel: 01654 700115 Fax: 07005 930825  
johncantor@heatpumps.co.uk  
www.heatpumps.co.uk

John Cantor  
Having 30 years' experience with heat-only heat pumps, we now offer troubleshooting and consultation relating to energy efficiency.

## LHW Partnership LLP

---

Luminous House, 300 South Row, Milton Keynes,  
Buckinghamshire MK9 2FR  
01908 933750  
James Hoare

LHW Partnership are an engineering consultancy specialising in the provision of Renewable and Energy Efficiency Engineering Services. We hold expertise in all aspects of large scale ground/water source heating and can provide a service from

feasibility of the design and project management for medium to large projects.

## LWRC

---

1 Lode Road, Lode, Cambridge CB25 9ER  
01223 812197  
Director: Charles M Wilson  
Land & Water Resource Consultants Ltd (LWRC) was founded in 1979 and is one of the oldest specialist hydrogeological and hydrological consultancies in the UK.

## Neoenergy (Sweden) Ltd

---

St John's Innovation Centre, Cowley Road, Cambridge  
CB4 0WS  
01223 911788

## Drilling Services

---

### ATB Drilling Ltd

---

35 Balgray Road, Barrmill, Beith, North Ayrshire KA15 1HP  
01505 506075 07713680628  
Alan Brocket  
ATB Drilling Ltd specialises in the borehole drilling for closed and open loop GSHP systems as well as water well drilling. Drilling is carried out using our 'Clean Drill System' which eliminates any site disturbance or mess. We undertake all aspects of the external installation of ground source energy collectors which includes the supply and installation of borehole collector loops, manifolds and all associated header works. We cater for small and large projects in both the domestic and commercial markets.

### D Hughes Well Drillers Ltd

---

8 Birchwood Court, Besscarr, Doncaster DN4 6SX  
01302 860 160  
Darren Hughes

### Dragon Drilling (Water & Energy) Ltd

---

Brickfields Lane, Off Denbigh Road, Ruthin, Denbighshire,  
LL15 2TN  
01824 707777  
Andrea Ellison  
Dragon Drilling (Water & Energy) Ltd have been installing GSH Boreholes for five years throughout the UK using modern rotary rigs, often in locations where there is restricted access. We are committed to working to the highest standards.

## Geocore Site Investigations Ltd

---

Tralee Close, Kirkleaham Business Park, Redcar TS10 5SG  
Tel: 01642 481144 07778 01 665  
[adamwoodhead@geocore.co.uk](mailto:adamwoodhead@geocore.co.uk)  
[www.geocore.co.uk](http://www.geocore.co.uk)

Ms Michelle Woodhead

Geocore Site Investigations Ltd is specialist in the drilling of boreholes. With a wealth of experience and fully trained and qualified staff we provide an excellent service. Geocore also has three in house geologists and NEBOSH qualified staff.

## Geo-Drill Ltd

---

Unit 24 Greencroft Industrial Estate, Tower Road,  
Annfield Plain, County Durham DH9 7XP  
[www.geodrill-ltd.co.uk](http://www.geodrill-ltd.co.uk)  
Paul Turnbull

Geo-Drill offers a vast range of experience in site investigation and in ground source borehole drilling in the UK and abroad.

## Geotechnical Ltd

---

Winwood Court, Norton Road, Stourbridge DY8 2AE  
Tel: 01384 440 880 Fax: 01384 3 95 800

Drilling services

## Ground Source Drilling & Contracting Ltd

---

Maun Avenue, Lowmoor Business Park, Kirby In Ashfield  
NG17 7LA  
Tel: 01226 741 843 Fax: 01226 743 392  
[groundsource-drilling.co.uk](http://groundsource-drilling.co.uk)

Ian Wicks

GDC installs vertical and horizontal ground arrays from boreholes drilling and trenching to insulation, grouting and earthworks. GDC undertakes works of all sizes from private work to public sector projects.

## HD Services Ltd

---

Thorne Barton Farm, Chesham Road, Ashley Green, Bucks, HP5 3PQ  
01494 792000  
Rebecca Taylor

We aim to provide the highest quality Open-Loop Heat Pump service available. Our clients depend upon our advice and flexibility to suit their individual requirements and we associate ourselves with suppliers that have a similar ethos. We have a partnering agreement with Thermal Engineering Systems, one of the market leaders in Open Loop Ground Source Heat Pumps. We are committed to completing contracts on time, using only directly employed labour and our own modern plant. HD Services Ltd is a BS EN ISO 9001 and BS EN ISO 14001 registered company and a member of the Renewable Energy Association. The company and employees are MCS accredited. All drilling works associated with heat pump installation can be carried out by our sister company, HD Drilling Ltd, who have been members of the Well Drillers Association since 1988.

## Hughes Geothermal Ltd

---

Leebotwood, Church Stretton SY6 6LU  
Tel: 016 94 751251 / 016 94  
751715 / 07881 555 978 Fax: 016 94 751251  
[office@hughesdrilling.co.uk](mailto:office@hughesdrilling.co.uk) [www.hughesdrilling.co.uk](http://www.hughesdrilling.co.uk)  
Martin Hughes

Hughes Geothermal Ltd established to provide a professional dedicated service to the GSHP industry. Using the expertise of the UK's leading exploration drilling service provider (Hughes

Exploration & Environmental Ltd) Hughes have been providing exploration, and associated services to the extractive industries, mines and quarries for over 30 years.

## Jackson Drilling Ltd

---

Northwood Farm, Coxbridge Road, Baltonborough,  
Glastonbury Somerset BA6 8RA  
01458 851 276  
Fred Mann

Drilling contractors and ground source heat installers. We specialise in all types of drilling including, cable percussive for soft sand and gravel, air percussive for hard rock, wireline drilling to reduce any risk of structural damage, and water/mud drilling for changing strata from soft to hard. We carry work for large companies as well as for the domestic market.

## Magpie Environmental Drilling Services Ltd

---

30 Halton Drive, Wideopen, Newcastle upon Tyne  
NE13 6AB  
Tel: 01 91 236 812 9 / 07710278146 / 07725203071  
[gary@magpiedrilling.co.uk](mailto:gary@magpiedrilling.co.uk) / [michael@magpiedrilling.co.uk](mailto:michael@magpiedrilling.co.uk)  
[www.magpiedrilling.co.uk](http://www.magpiedrilling.co.uk)  
Gary Raffle  
We are among the industry leaders for the drilling and installation of both open and closed loop geothermal wells.

## Nicholls Boreholes

---

Brownings Barn, Glasshouse Lane, Kirdford, West Sussex  
RH14 0LW

01403 820750

Ben Nicholls (Director)

Nicholls Boreholes is a highly experienced borehole drilling company that supplies, fits and looks after water boreholes, vertical ground source heat pump (GSHP) boreholes, GSHP systems and deep bore soakaways for houses and businesses and more recently cathodic protection boreholes. We deliver a comprehensive service with our own in house team undertaking every aspect of your project from site survey to final checks and aftercare service. Our borehole drilling equipment is designed to access sites of all sizes with minimum impact or disruption.

## Phoenix Drilling Ltd

---

4 Maxwell Square, Brucefield Industrial Park, Livingston, West Lothian EH54 9BL

01506 411448

Stephen Glover - 07775000218

Phoenix Drilling Ltd is a Scottish ground investigation company with the expert knowledge and experience of drilling and installing borehole ground loops for Ground Source Heat Systems. With a fleet of rotary and cable percussive rig and on-going investment in plant, training and health & safety, we are committed to meeting our clients' individual requirements and providing a first class service. We cater for both commercial and domestic markets.

## Raeburn Drilling & Geotechnical Ltd

---

Whistleberry Road, Hamilton, South Lanarkshire, ML3 0HP

01698 711177

Andy Taylor

Raeburn Drilling & Geotechnical have developed a safety and management culture suited to large projects. The majority of these projects are managed by members of the UK Contractors Group, an organisation whose members include the largest major civil engineering contractors working in the UK. We also provide borehole drilling services to smaller projects.

## Synergy Boreholes & Systems Ltd

---

Moses Winter Way, Wallingford, Oxfordshire, OX10 9FE

01491 828208

[info@synergyboreholes.co.uk](mailto:info@synergyboreholes.co.uk)

Mark Jennings

Synergy Boreholes & Systems Ltd, an ISO9001 company, offers drilling and equipping geothermal boreholes including all headerworks, manifolds, fusion welding, flushing, filling, supply and installation of GSHP systems in cooperation with MCS accredited partners.

## Teckna Group Ltd

---

Saddle Hill Farm, 277 Preston Road, Standish

Wigan WN6 0NZ

Tel: 01257 421 700 / 01257 472 3 99

[www.tecknagroup.co.uk](http://www.tecknagroup.co.uk)

Michael Shrigley

Teckna Group Drilling Services specialise in open and closed loop drilling contracts for residential or commercial projects nationwide. As one of the UK's leading geothermal drilling contractors we provide professional services for the drilling and headering works to clients' requirements.

## Terra Firma Ground Investigation Ltd

---

Rowan Tree Farm, Blackwell Hall Lane

Ley Hill, Buckinghamshire HP5 1UN

01494 791 110

Mark Bradley

TFGI is committed to achieving the highest standards of drilling for each project we do. To safeguard this we use the highest quality materials and have full backup support for all mechanical aspects of our plant. Our reputation depends upon it!

## Trench Cut Ltd - Groundworks

---

202 Sandyhurst Lane, Ashford, Kent TN25 4NY

01233 634888

Trench Cut Ltd is a specialised trenching and pipe/cable ploughing company based in Kent. With minimal disturbance and maximum efficiency we deliver a full range of trenching services using a variety of specialised machinery across the UK. Trench Cut provides the total external works package for horizontal loop systems using our trenching machines (not excavators).

## Warren Ecological Ltd

---

Warren Farm, Carthagen Road, Sutton, Bedfordshire SG19 2NQ

01767 262928

Arnie Bailey

Warren Ecological are specialists in the drilling of boreholes for ground source heat pumps using radial drilling systems.

---

### Waterseekers Well Drilling Services (UK) Ltd

The Grange, Ringer Lane Farm, Elmton, Worksop S80 4LX  
01246 743022

Jennifer Hornwell

Waterseekers deliver a complete and comprehensive turnkey service for commercial projects, covering all aspects of water borehole installation and ground source heating system installation.

---

### Welltherm Drilling Ltd

39 Embleton Drive, Chester le Street, County Durham DH2 3JS  
0191 447 4548

Jason Laing

Welltherm Drilling drills wells for ground source heat pumps. We undertake drilling for site investigations and groundwater wells for both private water supply and dewatering. We have a fleet of rotary and percussive drilling rigs including track mounted rigs for difficult terrain and low headroom rotary rigs.

---

### *Suppliers to GS industry*

---

### Altecnic Ltd

Mustang Drive, Stafford, Staffordshire, ST16 1GW

Tel: 01785 218200 Fax: 01785 218201

[www.altecnic.co.uk](http://www.altecnic.co.uk)

Stephen Elsmore

The UK's largest plumbing supplier covers ground source energy products.

---

### Ashgrove Energy Ltd

Unit E, Coney Green Network Centre, Wingfield View, Clay Cross, Chesterfield, Derbyshire S45 9HX

0845 4345458

Xabi Iglesias

Ashgrove Energy Ltd is one of the UK's largest suppliers of ground and air source heat pumps. With experience in projects such as houses, offices, community halls, schools and district heating, our systems can supply all of a building's heating & hot water requirements and simultaneous cooling.

---

### Casagrande UK Ltd

Unit 3, Botley Lane, Chesham, Buckinghamshire, HP5 1XS

01494 794990

Michael C Finch

Casagrande is one of the world's largest manufacturers of piling, drilling, and tunnelling equipment for the construction industry. Based in Fontanafredda, Italy, the company has been manufacturing equipment to the highest standards since 1963.

---

### Clear Solutions International Ltd

Unit B3, Wem Industrial Estate, Soulton Road, Wem, Shropshire, SY4 5SD

Tel: 01827 283810 Fax: 01827 254 921

[jan@drilling-products.com](mailto:jan@drilling-products.com) [www.drilling-products.com](http://www.drilling-products.com)

James Mansell

Specialist independent drilling products company which manufactures and supplies the global drilling industry with a comprehensive range of products including geothermal grouts, drilling fluids, recycling systems and screens for shale shakers, drilling fluids engineering and product specialists.

---

### Climalife - IDS Refrigeration Ltd

Green Court, Kings Weston Lane, Avonmouth, Bristol BS11 8AZ

0117 980 2520

Climalife, part of the Dehon Group, has been providing cooling fluids for refrigeration and air conditioning for more than a century. Climalife is committed to quality and protecting the environment enabling it to acquire cutting edge expertise in the fields of heating and renewable energy. Products include traditional installation and maintenance fluids and gases for air, water and ground sourced heat pumps as well as award winning, low environmental impact and biodegradable alternatives to traditional glycol antifreeze and heat transfer fluids.

---

### Dimplex UK Ltd

Millbrook House, Grange Drive, Hedge End, Southampton SO30 2DF

Tel: 0845 6005111

[marketing@dimplex.co.uk](mailto:marketing@dimplex.co.uk)

[www.dimplex.co.uk](http://www.dimplex.co.uk)

Chris Davis

Dimplex is the UK market leader in the provision of modern electrical heating systems. Heat pumps have been developed and produced at our manufacturing plant in Germany for over 30 years. Dimplex also produce a range of solid fuel stoves.

## Franck Energy Ltd

---

Studio F7, Battersea Studios, 80 Silverthorne Road, London, SW8 3HE

020 3637 1272

Marcus Franck

Franck Energy is the exclusive UK distributor of VARMITEK GSHPs. Built in Sweden, VARMITEK's dual compressor heat pump represents the pinnacle of quality heat pumps. We have scoured the Scandinavian market for the highest quality renewable heat products and teamed up with the best installers in the UK to ensure the highest quality end-to-end heating solution for the property owner.

## GeoQuip Water Solutions Ltd

---

Unit 7 Sovereign Centre, Farthing Road Industrial Estate, Ipswich IP1 5AP

Tel: 01473 462 046 Fax: 01473 462 146

[info@geoquipservices.co.uk](mailto:info@geoquipservices.co.uk); [mike@ecoquipservices.co.uk](mailto:mike@ecoquipservices.co.uk)

[www.geoquipwatersolutions.com](http://www.geoquipwatersolutions.com)

Mike Deed

Geoquip Water Solutions has an extensive product range, from submersible borehole pumps for water extraction to centrifugal pumps with sophisticated starter panels for the control and boosting of the water. Geoquip not only focuses on the clean water environment but also covers dirty, contaminated and waste water. Sophisticated monitoring can be applied to all systems using state of the art telemetry and logging.

## Geothermal Supplies Ltd

---

Heyford Close, Alderman's Green Industrial Estate, Coventry, CV2 2QB

Tel: 02476 328 900 Fax: 08703 835202

[www.geothermalsupplies.co.uk](http://www.geothermalsupplies.co.uk)

Our priority is to offer the best quality products and materials to our customers. This means supplying proven, industry accepted equipment, fittings and consumables. We are the sole European distributor for GeoLoop grout pumps and reeling equipment and GeoPro Thermally Enhanced Wyoming bentonite. Together with the highest quality PE100 polythene pipe we manufacture and deliver our Thermo-Loop ground heat exchangers.

## Go Geothermal Ltd

---

Unit 3, Ridgeway, Aycliffe Business Centre, Newton Aycliffe, County Durham DL5 6SP

Tel: 01388 720228 Fax: 0871 221 4234

[info@gogeothermal.co.uk](mailto:info@gogeothermal.co.uk)

Sean Sowden, Tim Williams

Go Geothermal supplies PE100RC, PE100, Pex probes, preinsulated pipe, chambers, manifolds, biocides and other supplies to the ground source industry from stock.

## Hydra Technologies Ltd

---

Unit 5, Europa Way, Fforestfach, Swansea SA5 4AJ

Tel: 017 92 586 800 Fax: 017 92 561 606

[sales@coolflow.co.uk](mailto:sales@coolflow.co.uk) [www.hydratech.co.uk](http://www.hydratech.co.uk)

Stephen Hickson

Hydra Technologies Ltd manufactures of the CoolFlow range of Heat Transfer Fluids for ground source heat pump systems.

## Jelf Group Plc

---

Chequers Close, Enigma Business Park, Malvern, Worcestershire, WR14 1BF

Tel: 01684 571835

[carl.gurneyt@jelf.com](mailto:carl.gurneyt@jelf.com)

[www.jelfgroup.com](http://www.jelfgroup.com)

Carl Gurney

## Kensa Heat Pumps (Kensa Engineering Ltd)

---

Mount Wellington, Chacewater, Truro TR4 8RJ

Tel: 01872 862140 / 013 92 826 021

Fax: 01872 862 440

[info@kensaengineering.com](mailto:info@kensaengineering.com)

[www.kensaengineering.com](http://www.kensaengineering.com)

John Barker-Brown

Established in 1999, Kensa Engineering Ltd is the UK's only manufacturer of a full range of ground source heat pumps designed for both residential and large scale commercial use including the largest single phase unit (24kW) in the market. Kensa have a no-nonsense approach to heat pump technology and will provide honest advice as to whether a heat pump is suitable.

### Kilfrost Ltd

---

4th Floor, Time Central, 32 Gallowgate  
Newcastle upon Tyne, NE1 4SN  
Tel: 01434 321 500 01434 323 184  
Hector Alonso

Kilfrost produces the Thermatrans range of inhibited glycol based heat transfer fluids which have been specifically designed to deliver high resistance to degradation, scale, biological growth and corrosion in ground source heat pump systems. Kilfrost heat transfer fluids benefit from over 80 years of technical expertise in inhibiting glycols for safety critical applications.

### Muovitech (UK) Ltd

---

Unit 2, Factory Street, Ramsbottom BL0 9BT  
01706 825035  
Layla Sutcliffe

MuoviTech provides "best in earth" products for geothermal energy, from its own factories in Sweden, Finland, Poland, Netherlands, US and UK. Complete supplier of collectors, manifold chambers, distribution pipes, casing pipes, valves, fittings, and everything needed for installations up to a heat pump / cooler.

### Nuenta Ltd

---

Unit 31, Rumer Hill Industrial Estate, Rumer Hill Road,  
Cannock WS11 0ET  
01543 466642  
Jason Adderley

Nuenta aims to become the No 1 supplier of renewable and environmental products by providing high quality and good service on products like buffer tanks, ground source manifolds, expansion vessels, heat exchangers and RHI approved heat meters.

### Nuwave Solutions Ltd

---

Unit 8 Willowburn Road, Willowyard Industrial Estate, Beith  
KA15 1LN  
0843 557 4463 / 07969 616791  
Lloyd Allam  
Nuwave Solutions provides thermal transfer fluids.

### Peak Pipe Systems Ltd

---

Peak Pipe Systems, Smeckley Wood Close, Chesterfield Trading Estate, Chesterfield, Derbyshire S41 9PZ  
01246 262 721  
Andy Hatton  
Peak Pipe Systems supplies contractors, drillers, installers, consultants and system designers with all the products and services needed to extract heat from the ground and convey it to a ground source heat pump. Peak extrudes pipe, assembles ground loops, manufactures electrofusion fittings, builds control boxes and fabricates manifolds: all on the same ten acre site in Chesterfield.

### REHAU Ltd

---

Hill Court, Walford, Ross-on-Wye HR9 5QN  
01 98 9 762642  
enquiries@rehau.com www.rehau.co.uk  
Steve Richmond  
REHAU manufactures a wide range of ground-source pipework and accessories, such as PE-Xa and PE 100 probes, horizontal collectors, helix probes and coaxial probes. The accessory range includes pre-assembled manifold chambers, modular manifolds, underfloor heating and PE-Xa pre-insulated pipe. REHAU is a premium global brand for polymer based solutions, employing over 14,000 people worldwide.

### Sentinel Performance Solutions Ltd

---

The Heath Business & Technical Park, Runcorn, WA7 4QX  
Tel: 01 928 588 330 Fax: 01 928 588 368  
gshp@sentinel-solutions.net  
www.sentinel-solutions.net  
Bob Simcox

Sentinel is a recognised authority on maximising energy efficiency in heating systems and minimising carbon emissions. Supplies a comprehensive range of heat transfer fluids, cleaners, biocides and test kits for renewable technologies, in addition to a range of corrosion and scale inhibitors, cleaners and test kits for traditional central heating and underfloor heating systems.

### Vaillant Group UK Ltd

---

Nottingham Road, Belper DE56 1JT  
01773 596109  
Kirsty Craig

Vaillant has been developing and manufacturing innovative heating and hot water systems for 140 years. The Vaillant renewable range includes ground source heat pumps, air to water heat pumps and solar thermal panels. These are backed-up by installation-supporting systems technology engineers.

### Waterkotte UK Ltd

---

Energy House, Milbury Heath Road. Buckover, South Gloucestershire GL12 8QH  
0845 070 7338

In 1969 Klemens Waterkotte was the first to develop and install a heat pump in Germany - a pioneer and trailblazer for a new technology. Klemens Waterkotte was always looking for the best technical solution and the most efficient system: Waterkotte heat pumps are designed to meet the highest quality standards.

## **Training Services**

---

### **BPEC Services Ltd**

---

2 Mallard Way, Pride Park, Derby DE24 8GX

Tel: 0845 644 6558 / 01332 376005

Fax: 0845 121 1 931

[info@bpec.org.uk](mailto:info@bpec.org.uk) [www.bpec.org.uk](http://www.bpec.org.uk)

Paul Cullen

BPEC offers generic training solutions to the building services engineer, covering conventional areas such as gas, oil, water and electric. BPEC also produces a suite of renewable energy training courses such as ground source heat pump, solar, biomass, rainwater harvesting and underfloor heating.

### **NAPIT**

---

4th Floor, Mill 3, Pleasley Vale Business Park, Mansfield,

Nottinghamshire NG19 8RL

0845 543 0330

Ian Halton

NAPIT, a leading government-approved Competent Person Scheme operator, has been setting industry standards and offers cost-effective certification throughout electrical, plumbing, heating, ventilation and microgeneration technologies. NAPIT registered installers are committed to consumer safety and maintaining excellence, providing regulation-compliant, guaranteed and high quality workmanship. NAPIT is committed to householder safety and ensures that through the competence of our registered installers, householders can be confident the work carried out complies with the relevant regulations. NAPIT are also UKAS accredited for the certification of MCS installers.

### **NICEIC**

---

Warwick House, Houghton Hall Park, Dunstable, Bedfordshire

LU5 5ZX

01582 531000

John Eddy

NICEIC is the UK electrical contracting industry's independent voluntary body. We offer leading certification services, Building Regulations Schemes, products and support to electrical contractors and many other trades within the construction industry. Over 25,000 contractors are registered with us and take advantage of our training, products and services.

## **Trade Associations**

---

### **British Drilling Association Ltd**

---

Wayside, London End, Upper Boddington, Daventry,

NN11 6DP

Tel: 01327 264622 Fax: 01327 264623

Keith Banton

The BDA was founded in 1976 as the trade association for the UK ground drilling industry. BDA represents the interests of over 110 companies from manufacturing, supply and contracting. BDA is: "Committed to excellence in health and safety; quality of workmanship and technical standards for the benefit of the drilling industry and its clients."

### **Heat Pump Association**

---

2 Waltham Court, Milley Lane, Hare Hatch, Reading

RG10 9TH

Tel: 0118 940 3416 Fax: 0118 940 6258

[www.heatpumps.org.uk](http://www.heatpumps.org.uk)

Tony Bowen

Heat pump manufacturers association.

### **HHIC**

---

Camden House, Warwick Road, Kenilworth CV8 1TH

01926 513762

Caroline Taylor

The Heating & Hot Water Industry Council is a trade organisation committed to supporting and promoting the sustained growth of the UK domestic heating and hot water industry. HHIC is a division of Energy & Utilities Alliance (EUA).

## **Local Government**

---

### **Three Rivers District Council**

---

Three Rivers House

Northway

Rickmansworth

WD3 1RL

Tel: 01 923 727 228 / 01 923 776 611

[nick.dimbleby@threerivers.gov.uk](mailto:nick.dimbleby@threerivers.gov.uk) /

[clay.charles@threerivers.gov.uk](mailto:clay.charles@threerivers.gov.uk)

Clay Charles

Two gshp horizontal slinky systems were installed in Council owned premises. The first system installed was retrofit to the existing Air Handling Unit serving a meeting room. The requirement was not only for heating but also cooling. The second system was installed at a recreation centre and provided underfloor heating to a restaurant and toilet block as well as the warden's first floor flat.
